

B.Com (Honors) Accounting

PROGRAM OUTCOMES (PO's)

PO1 - Knowledge and Understanding: Graduates will possess a deep understanding of core accounting principles, financial reporting, taxation, auditing, and business laws, enabling them to apply these concepts in real-world business and financial contexts.

PO2 - Analytical and Critical Thinking: Graduates will be able to analyze complex financial statements, identify patterns and trends, and critically evaluate financial information for decision-making purposes.

PO3 - Practical Application of Accounting Skills: Graduates will be proficient in using accounting software and tools, applying theoretical knowledge to practical scenarios, including the preparation of financial statements, tax returns, and auditing procedures.

PO4 - Communication Skills: Graduates will develop strong written and verbal communication skills, enabling them to present financial data, reports, and analyses effectively to various stakeholders, including clients, managers, and regulators.

PO5 - Ethical and Professional Responsibility: Graduates will understand and adhere to ethical principles, including corporate governance, financial integrity, and compliance with accounting standards and regulations, ensuring professionalism in the accounting field.

PO6 - Lifelong Learning and Adaptability: Graduates will develop a commitment to continuous learning and professional development, staying updated with evolving accounting standards, technology, and practices in the business environment.

PO7 - Research and Innovation: Graduates will demonstrate the ability to conduct research in accounting, including exploring new techniques and frameworks, and contribute to innovations in financial practices and systems.

PO8 - Teamwork and Leadership: Graduates will work effectively in teams, managing conflicts and building consensus, and also develop leadership qualities for managerial roles in the accounting and finance sectors.

PROGRAM SPECIFIC OUTCOMES [PSOs]

PSO1 - Advanced Accounting and Financial Reporting: Graduates will be proficient in advanced accounting techniques and financial reporting, including the preparation of complex financial statements in accordance with international financial reporting standards (IFRS) and generally accepted accounting principles (GAAP).

PSO2 - Taxation and Auditing: Graduates will have specialized knowledge of tax regulations and auditing processes, enabling them to prepare tax returns, provide tax advice, and conduct internal or external audits.

PSO3 - Cost and Management Accounting: Graduates will possess the ability to apply principles of cost accounting and management accounting, helping organizations in budgeting, cost control, and profitability analysis.

PSO4 - Business Law and Corporate Governance: Graduates will be familiar with business laws, including corporate governance, company law, and labor law, ensuring that they can navigate legal frameworks that impact business operations.

PSO5 - Financial Management and Investment Analysis: Graduates will be able to evaluate financial investments, manage corporate finance functions, and assess the financial health of organizations, contributing to strategic financial decision-making.

PSO6 - Accounting Software and Data Analytics: Graduates will be equipped with the skills to use accounting software and data analytics tools for financial data processing, forecasting, and performance evaluation, improving operational efficiency.
