### DEPARTMENT OF BUSINESS ADMINISTRATION

**“Empathy, Equity, and Efficiency: The Three Pillars of Gen Z Leadership**  
The three most imperative things for Gen Z leaders are empathy, equity, and efficiency.”

Generation Z is bringing a new point of view to leadership responsibilities as they take on these jobs. Their three main ideas on how to be a good leader are empathy, equity, and efficiency. These beliefs affect how they lead, make choices, and talk to their teams. Gen Z leaders put empathy first because they know that mental health and emotional intelligence are very important at work. They build deep relationships, make places where everyone feels welcome, and promote open communication. They do this to gain their team's confidence and loyalty.

Another important part of Gen Z leadership is equity. These leaders care about diversity, equality, and inclusion (DEI). They want to create workplaces where everyone has the same chance to achieve, no matter their background, gender,

Gen Z leaders grew up with technology and use it to make processes better, increase productivity, and get results. They make decisions based on data, use technologies to boost productivity, and accept working from home and communicating asynchronously. They get more done in less time by working smarter, not harder.

A new generation is changing what it means to be a leader by combining empathy, equity, and efficiency. Gen Z leaders are more than simply bosses; they are people who make things better. They are making workplaces that are more welcoming, more productive, and more human. As they grow and change, their style of leadership will change the way others work and inspire a new generation of leaders.

Gen Z leaders are ready to change the world of work for good by focusing on empathy, equity, and efficiency. It's exciting to think about what the future holds for these young leaders since their manner of leading is so different.

## POEM

### THE JOURNEY WE LIVE

The halls where chanting begins,  
Of laughter, dreams & pains,  
When the clock ticks loud, classes stretch long,  
With hot coffee and half sung song.

A student walking with a book in hand,  
A knowledge seeker in this changing land,  
Dreams in eyes, manifesting high,  
They chase the stars that line the sky.

They rise, falter and fall again,  
In situations filled with joy and pain,  
Exams come like a hasty storm,  
And friendships grew strong and warm.

A journey lived with mind and heart,  
Where purpose and passion play their part,  
So forever dream and let your mind grow,  
Let experience teach what grades won't show.

The fleeting time both, hard and kind,  
Will never come back, just the moments in mind,  
Craving for this life of desk and pen,  
The life here never ends.....
