M.Com (Financial Analysis)

Admission 2025-26

About the Department

The Department of Commerce was established in Manipal University Jaipur in 2012. The department fosters excellence in teaching graduate and postgraduate courses in commerce and management. Apart from classroom learning, students are given practical exposure through frequent industry interactions and internships with reputed banks and financial institutions, chartered accountants, hotels, and other concerned industries. A well-rounded education is ensured by the department's extensive curriculum, which frequently stands out for covering fundamental topics including accounting, finance, marketing, and business law. Opportunities for experiential learning, such as workshops, seminars, and internships that connect theory with practice, are some of the unique features of the department. The department places a strong emphasis on research and analytical abilities for motivating students to work on projects that sharpen their critical thinking abilities. Career counseling, professional industry guest lectures, and networking activities all enhance the educational process and aid students in making a smooth transition into the field. The Department also has a Research Cluster named "Knowledge Alliance" for fostering the research culture among faculty and students.

About the Program

The program M. Com (Financial Analysis) is crafted to provide students with an advanced understanding of financial decision-making and strategic analysis. It focuses on developing high-level analytical skills that are essential for navigating complex financial landscapes. This program prepares graduates for leadership roles in finance, equipping them with the expertise to manage financial risks, optimize investment strategies, and contribute to organizational financial growth. By blending theoretical knowledge with practical insights, the program ensures students are well-prepared for a successful career in the dynamic world of finance.

The Department offers latest technology equipped labs :

Accounting Lab: The Accounting Lab provides state-of-the-art tools for practical learning in accounting and auditing. It is designed to help students for providing hands-on experience with accounting software, financial statements, and tax-related tools.

Bloomberg Lab: Bloomberg Lab is a learning facility that gives access to Bloomberg Terminals, which are utilized to examine real-time financial data, reports, and analytics. Bloomberg Labs help students and researchers to learn about dynamic financial markets, economic trends and provide assistance in decision making.
