Computer Science and Engineering

Admission 2025-26

About the Department

The Department of Computer Science and Engineering, established in 2011, is dedicated to achieving excellence in the field of computer science and engineering, fostering global competence and upholding human values.

Equipped with state-of-the-art laboratories, the department offers advanced hardware and software resources across key areas of computer science and engineering. It fosters a unique learning environment for students' holistic development, guided by a team of experienced and well-qualified faculty members with research expertise in fields such as Artificial Intelligence, Algorithms, Software Engineering, Databases, Computer Networks, Wireless Sensor Networks, Data Mining, Machine Learning, Deep Learning, Natural Language Processing, Cybersecurity, Pattern Recognition, The Internet of Things, and Cloud Computing and Blockchain.

Graduates from the Department of Computer Science and Engineering consistently secure impressive placements with top global companies such as Dell, PwC, Cisco, Amazon, Google, and Juniper Networks, reflecting the department's strong commitment to career readiness and success. Highly regarded by students across the nation, the department has established an impressive placement record, underscoring its commitment to preparing graduates for successful careers in leading companies worldwide.

Key Highlights of the Program

Strong Foundational Core with Flexible Pathways

Research-Driven Undergraduate Experience

Industry-Integrated Learning Ecosystem

Entrepreneurship and Innovation Incubation

Interdisciplinary Collaboration and Holistic Learning

Modern Infrastructure and Global Academic Resources

Continuous Skill Enhancement and Mentorship

Vibrant Campus Culture and Networking Opportunities

Experience Faculty Members

Unique Research and Lab Facilities

Data Structure and Algorithm

Database Management System /Operating System Lab

Information System Security

Central Computing Lab

Intelligent Computing Lab

Advanced Computing

System Software/Web Technology Lab

Cloud Infrastructure Lab

High Performance Computing Lab

Career Opportunities

Data Analyst/Scientist

Cyber Security Analyst

Full stack and Salesforce

AI Engineer

Developer

Database Designer & Manager

Software developer/Manager

Computer Vision Researcher and Developer

Network Security Manager

Computer scientist

Machine Learning

Business Intelligence (BI)

Researchers and Engineer

Data Scientist

Academic/Industrial Collaboration

- Sothern Federal University
- CESI France
- Jorge Basadre Grohmann National University
- Dell
- UiPath
- VMware IT Academy
- AWS Academy
- Price water house Coopers (PwC)
- Celebal Technologies
- Information Data Systems Inc
- SECURE Meters Ltd.
- Intel Corporation
- Aims Interactive Pvt. Ltd.
