Admission 2024-25

About the Department

The Department of Information Technology was established with a single aim to foster an excellent academic and research environment for budding engineers eager to dig into the realm of IT domain. Understanding the rapid pace of technological advancements and industry expectations, the course curriculum is frequently updated, drawing insights from contemporary industry trends. This ensures that the students are not only well-equipped with foundational knowledge but are also at the forefront of current IT advancements. The state-of-the-art lab facilities provide a hands-on approach to learning, while our team of highly qualified, experienced, and dedicated staff members ensures that each student receives the mentorship and guidance necessary to excel in their chosen field. Outside of the traditional classroom setting, the students are encouraged to join and participate in activities organized by our dedicated student clubs such as LearnIT, ACM, and IEEE. The student dedicated clubs provide invaluable opportunities for students to network, collaborate on projects, and enhance their skills in real-world scenarios. Furthermore, the department is strengthened by robust collaborations with industry and academic partners, underscored by our multiple Memorandums of Understanding (MoUs). These strategic partnerships allow for industry-focused training sessions, internships, and workshops, ensuring our students are industry-ready by the time they graduate.
